

# **FOOD KIT FOR COMPONENTS OF CHILLED AND FROZEN DESSERTS**

## **ABSTRACT OF THE DISCLOSURE**

A food kit for the components or ingredients of a ready-to-make, chilled or frozen dessert. The kit preferably includes a plurality of compartments for the ingredients with one of the compartments being filled with a dessert component such as ice cream, yogurt or pudding. The second compartment is filled with a component such as cookies or wafers and the third with a topping component such as fudge, syrup, or bits of candy. In use, the consumer may create a dessert with any number of combinations of the components.
